MEKK bar combines contemporary Estonian drinking culture and Modern Estonian Cuisine.

At MEKK bar, we always begin with drinks and then combine with them dishes to everyone's liking. Whereas at the MEKK restaurant the emphasis is on food, with drinks supporting the delicacies created by the MEKK team, it is the other way around at the bar.

MEKK bar features rich menu of vodkas and made-on-the-premises spirits. Particular emphasis and attention are devoted to serving these intense and bracing drinks. Needless to say, besides strong alcoholic drinks, also available are made-on-the-premises soft drinks, classic cocktails with an infusion of Estonian flavour, and teas and coffees served to a high standard.

The selection of food at MEKK bar focuses on MEKKsers, selections of cold hors d'oeuvre and dishes served at the table on platters. MEKKsers are sure to provide a journey through flavours for fastidious experience seekers and a spirited group of friends alike, offering opportunities to sample various dishes, share them with companions and spend nothing short of a whole evening with delicious food! In addition to MEKKsers, the menu features also heartier salads for whole meals, MEKK's mains and delicious desserts. MEKK's well-known quality and authenticity are assured also at the bar!

Enjoy!
